

community and population health

Sat, 01 Dec 2018 20:18:00 GMT community and population health pdf - Population health has been defined as "the health outcomes of a group of individuals, including the distribution of such outcomes within the group". It is an approach to health that aims to improve the health of an entire human population. This concept does not refer to animal or plant populations. It has been described as consisting of three components.
